INTER-OFFICE MEMO

TO: Information Services Policy Committee

FROM: Doug Thomas, Information Services Manager, Information Services

DATE: October 9, 2008

SUBJECT: Monthly Report

SYSTEMS DEVELOPMENT PROJECTS

1. InterLinc eGov

The Tee Time Reservation System was deployed to the public on 09/15/08 for the Pioneers golf course. This pilot system has been enhanced with short cut procedures as recommend by the pros. The balance of the courses can now be deployed in October as soon as all the hardware is available. Chris completed the public module of the Lancaster County Disaster Registry and began working on the first responders module. We continue to work with Delayne Peck from LAAA on the registry and recently gave Delayne a private demonstration of the system which he enthusiastically indorsed.

2. EnterpriseOne (PeopleSoft)

Conversion efforts on version 8.12 are in full swing. Conversion planning and activities began on 06/01/08, and should take about six total weeks with an October target date. A few new processes have been identified for our staff which may require additional training.

3. RRS (Rbase Replacement)

Nick has completed the design of the Records Request System and is working with Brian Pillard on the programming design and functions. This project is targeted for a November 3rd implementation.

4. Nebraska Digital Summit

Terry is working on the planning committee again this year for the November 18th conference. The submission for the 2008 Digital Cities Survey is being complied with an October 15th dead line.
